

A COMMUNITY EFFORT TO SAVE LIVES!!

Grant Applicant,

San Diego Project Heart Beat (SDPHB), San Diego County's Public Access Defibrillation Program, has one main goal: "to save lives through early defibrillation." To reach that goal, our objective is to make automatic external defibrillators (AED's) as accessible as fire extinguishers throughout the county.

Joining the SDPHB team is easy, accessible and affordable. Realizing this is not necessarily the case for all groups, businesses and organizations, SDPHB is offering financial assistance through grant funding that has been established solely for the purchase of AED's. SDPHB is offering assistance through an approved financial assistance grant application form. Approved applicants can receive funds up to 25% designated specifically for the purchase of AED's for the requestors' chosen site.

The complete package cost of one AED is approximately \$2100.00. This includes tax, shipping and handling charges. Government agencies pay no shipping or handling.

Simply complete the attached application form. Please be thorough in expressing the requested information and feel free to add any additional information or pages that would benefit a positive approval of your application. Send completed grant application forms to:

San Diego Project Heart Beat
10405 San Diego Mission Road, Suite 100
San Diego, CA. 92108
Attn.: SDPHB Grant Applications
Forms may also be faxed into (619) 243-0913

Any questions related to the grant application can be directed to:
PAD Program Coordinator at: (619) 243-0911

A COMMUNITY EFFORT TO SAVE LIVES!!

**FINANCIAL ASSISTANCE GRANT APPLICATION
FOR AED PURCHASE**

REQUESTING ORGANIZATION NAME:

DATE OF REQUEST:

Please briefly describe the type of service your organization provides to the Community:

What is the name of the proposed AED site location?

What is the main purpose of service provided at this proposed site?

What is the approximate number of individuals visiting this proposed site on a monthly basis? _____ Daily basis? _____

Does this proposed site currently utilize AED's at this same location? _____
If so, how were the AED's at this site obtained? _____

It is important to know that an AED program must include, Medical Oversight, Program Management and AED maintenance must be in place for the use of any AED. This includes a prescription for the AED at its location as well as communication between the using organization and the oversight entity when the AED is used in an emergency. Such a program can be purchased through San Diego Project Heart Beat. Other related costs can be incurred as the result of AED deployment, maintenance or damage to the AED unit. Can you commit as an organization to maintain this program, as required by the regulations set forth by the California State statutory law in subsequent years? _____

Name: _____ Signature: _____

Contact Phone Number: _____

Price of Program Management quoted can be subject to change.
